## DEDICATION

We dedicate this book to our Lord, Jesus Christ, in gratitude for His transformational saving grace. The privilege of receiving and passing on these truths is one of our life's greatest joys.

A special thank you to our Serve the King team who have dedicated their talents and hearts to this project.

Soli Deo Gloria!

The greatest threat to our way  
of life is the philosophy born  
out of the theory of evolution.

Domenic Fusco

# PREFACE

evil-lu-tion

## Definition of evilution

*The systematic deception of the origin of human life for the expressed purpose of having society depend upon government; not God.*

The public school system's indoctrination of students to accept the "theory" of Evolution as scientific fact is the greatest hoax forced on our children – our culture – in our country's history. Public education offers no other choice! All other possibilities of the origin of mankind from Intelligent Design to Biblical Creation have been censored. The philosophy evolution fosters is the source of myriad social upheavals and moral decay.

Evolution's basic treatise lays the ground work for the belief in self as the highest standard and power. God, then, is disregarded making way for the acceptance of destroying - without conscience - His highest creation, mankind, via abortion, assisted suicide, etc.. Evolution's religion, hedonism, glorifies self. It promotes self gratification, self-serving, and the total self-indulgent philosophy that individual pleasure is the highest good and proper aim of human life. Therefore, it excuses bullying, cheating, stealing, promiscuity, same sex relationships, abortion, and more. It promotes a total disregard for civil

authority and diminishes human potential as witnessed in the disappearing ability for critical thinking among its disciples.

More aptly named ***Evilution***, evolutionary philosophy's tentacles have an undeniable strong-hold on today's youth. The sad proof that this philosophy permeates the mindset of today's teens is realized in hard statistics charting the mass exodus of 60% to 80% of young people from church after high school graduation. They have believed the lie and become its slave. It's a choice between the Tree of Knowledge of Good and Evil and the Tree of life.

***"... today I have set before you life or death, blessing or curse. Oh, that you would choose life; that you and your children might live!"***

Deuteronomy 30: 19 Living Bible

## Chapter One

# The BIG Lie Society Accepts as Truth

**A big lie** (German: große Lüge) is a propaganda technique and logical trick (fallacy). The expression was coined by Adolf Hitler, when he dictated his 1925 book *Mein Kampf*, about the use of a **lie** so “colossal” that no one would believe that someone “could have the impudence to distort the truth so infamously”. Repeat a lie often enough and many will believe it is true.

Most Americans believe the Big Lie! Evolution is a theory, not a scientific fact, yet many States in the USA, and other nations have considered evolution a scientific fact. It is not. Just think about the deception we have fallen for in government schools where any origin of life is censored from being taught except evolution. That means if you believe in the theory of evolution as fact then you believe:

- **Nothing created everything**
- **Chaos created order**
- **Non-life created life**
- **Non-consciousness created consciousness**
- **Non-personal created personal**
- **Non-rational created rational**
- **Blind created sight**
- **Deaf created hearing**

Think about it! Nothing created everything? Impossible. Yet every public school student must believe it or fail. They must perpetrate and propagate the **BIG LIE!** Why?

Of course it is difficult for the layperson to argue with scientists but there are two questions I must ask:

1. Where is the conclusive proof of evolution? - Show me any steps in the evolution of a human being out of the millions of increments humans must have gone through to be who they are today. No one has ever shown one incremental step as proof.

2. What is the motive or reason for rejecting creation? One hundred years after Piltdown Man was "discovered," scientists are still investigating how and why the fossil find was faked. Why? If evolution is valid, then God or a supremely intelligent being did not create humans. In short it is a big lie and a purposeful effort to reject the faith and authority of a Creator, God.

Those individuals in charge of education in the USA have taken a century to get not only students but society as a whole to believe in evolution and if evolution is a real science then we have no need for God. There in lies the motive. Here is where it started. The root of this Progressive Philosophy began with the founder of modern education in the United States; John Dewey. Dewey was influenced by the Enlightenment philosopher Jean-Jacques Rousseau (1712-1778), who Henry T. Edmundson III described as the “single most important influence on progressive education,” both in Europe and America. An essential point of agreement between Rousseau and Dewey was their belief in the natural goodness of man. Dewey, a man whose mind was enraptured by the scientific method, expanded its use to education. He took the processes of empirical science, established by such men as Sir Francis Bacon, and extended them further than most of the men of the Enlightenment would have taken them.

The driving motive behind getting our children to believe in evolution, which we call evolution, began with the seeds John Dewey planted and it’s impact on society is illuminated in Chapter Three. Don’t be deceived at the subtle introduction of science and the goodness of man having its purpose in slowly defeating the faith and believe in a Creator.

For an in depth discussion on Dewey’s progressive impact visit: <https://www.iwp.edu/articles/2018/02/01/the-tragedy-of-american-education-the-role-of-john-dewey/>

## Chapter Two

# How and Why the Deception Continues

People are taught to believe evolution is a science by people they trust. Their teachers were taught it by their teachers and professors they trusted. And all the teachers and professors up the line were taught by those they trusted. And probably less than one percent of all the scientists who ever lived have had a firsthand experience in the lab questing after the origin of all of creation. All the rest believe second hand and having no personal hands on experience; they simply believe what they have been taught by faith. Think about it! The very authority figures that are condescending to you for your faith in God are accepting really outrageous claims of how vision and digestion and reproduction came into being by faith. Can you see how it takes more faith to believe in evolution than God? Did you know that the scientific method can only be applied to operational science, not historical science? It takes more faith to believe this unproven theory that contradicts the second law of thermodynamics, than to believe in the Creator.

## **Have you ever thought about how NOTHING could create EVERYTHING?**

Has science ever been wrong? Yes, many, many times. Here are just a few errors that stand out over the centuries: the flat earth theory, the belief that the earth was the center of the universe, and the myth that margarine is good for your health. For 25 more “scientific” errors see the link at the end of this paragraph. Some choose to worship at the altar of science. We, in good conscience, cannot! <https://list25.com/25-science-facts-that-were-proven-wrong>

## **How do you decide who to trust?**

Do you agree that bad conduct is a revelation of one’s nature and character? Are you less likely to trust a bully than someone who listens and discusses possibilities? Of course you want the ability and freedom to choose, not be bullied, or have your opinions and beliefs censored. So let’s consider the sources for passing down the theory of evolution as scientific fact. It is the Goliath model of the public educational system that teaches the theory. Our children have no alternative choice; no intelligent design, supreme being, or even aliens are allowed to be considered. How does Goliath act when alternate theories are put forth? They posture themselves as the Goliath of old did with arrogance and condescension; with rude dismissal. Your “Intelligent Design” theory is religion and not science and will not be allowed in the classroom! Who gave them the authority to rule on what is and

what is not in the unknown world of space? And why do they get to decide what is allowed in our tax-payer funded schools? You might think that if they are as confident as they claim, they would gladly and quickly demonstrate and conclusively prove the superiority of evolution scientifically! They cannot.

## **There is No incontrovertible proof that evolution is a scientific fact.**

We contend that evolution is not even valid science, but rather an easy excuse to *not* acknowledge the Creator. Why they would rather believe that an inorganic explosion made everything come into existence in order (Big Bang Theory) or a single cell amoeba grew into the entire catalog of the complex and highly diverse animal kingdom culminating with humanity. I would like to know who lit the fuse to create the Big Bang. Or how about a single cell amoeba growing into the entire catalog of inorganic and organic items including the animal kingdom, culminating with humanity! How the evolutionary process randomly began millions of years ago is a mystery when everything in eyesight is a human, purposeful design. Nothing just happens by accident. Highly designed DNA is not accidental but rather has a brilliant Scientist to credit for its development. Beautiful roses did not sprout out of chaos, but rather were fashioned by the divine Artist.

It is a dirty little secret why they never agree to a side by side comparison. Why? Because they have no facts or standard by

which to justify their claims that the origin of life has scientific outcome and is attributed to evolution and not to God. They have no way to prove without any doubt evolution is scientific fact. We can conclude that their resistance to other possibilities of the origin of mankind is nothing less than bias and bullying.

Look at society after 50 years of pushing evolution as science. Civil behavior is largely declining and lawlessness is increasing. A social system without order where everyone does what he or she thinks is right is like a city with 8 million people driving cars on streets without stop signs and traffic lights. There is bound to be fatalities. Ever been in a third world country where condition like that exist. I have. Almost every car is populated with dents.

The theory of evolution is forced on innocent children, as Goliath taunted David, with nothing to back it up but his boastful fear tactics then just as the giant fell to his death, so will the theory of evolution be proved to be a house of cards! Share the truth by simply asking the questions on page 12 and wait for an answer. You will quickly debunk this horrific BIG LIE!

Social media, PTA meetings, letters to the editor, stimulating conversations, etc. are some good action to begin questioning the Big Lie. Pay close attention to the approach that works effectively in Chapter Six.

**Let's get ready for an awakening!**

## Chapter Three

# The Evil Impact on Society

The enemy of God wants to redirect your focus away from the societal diseases produced from the evil philosophy of evolution and cause you to entertain the realm of science which most people have little in depth knowledge of.

Let's look at the contrasting views of God vs. Evolution. It is important to use the differences in conversation in the form of questions and then be quiet and put pressure on them to answer. Don't answer your own question. If you have to leave them thinking, good.

For example if you were to hire an employee or find a mate you decide to marry would you like them to be described as one who believes in the evolutionary philosophy or God's principles.

Let's see. So you want an employee or mate that is self serving without a moral foundation of right and wrong, that lives by his or her own standards, who might steal, cheat, lie, and often does the right thing when someone is looking (A-moral). A person that makes little or no sacrifice for the team or marriage usually employs situation ethics. That means they decide what is right and wrong to suit the outcome they desire. It's like playing football without rules, or running a business without order. Very often the progressive mind is concerned with immediate gratification and not the long term commitment. Review this chart and you may respond like Al Capone did when he was caught reading the Bible. "I'm looking for loop holes". There are no loop holes in God's absolutes. They work for the good of all.

<b>Biblical World-view</b>	<b>Progressive World-view</b>
God	No God
Divine Creation	Evolution
Supernatural Man	Natural Man
Christ Centered Life	Self Centered Life
Biblical Guidelines	Values Clarification
Absolute Standards	Situation Ethics
Obey God's Commands	No God - Obey Self
Moral Accountability	Self-indulgent Behavior
Human Value & Purpose	Survival of the Fittest
Long Term Gratification	Immediate Gratification
Internal Self Government	External Government
Sacrificial Living	Self-indulgent Living
Serve Others	Serve Self
Hope - Faith	No Hope
Eternal Life	Death

When we take the “survival of the fittest” approach of the progressive, evolutionary philosophy, self indulgent behavior produces conflict. Harmony comes with sacrifice and moral accountability. Even marriage is not a 50-50 relationship. There are many times one of the partners has to give 100% when their mate is unable to offer anything. It’s an attitude of service knowing you will be rewarded in the near future or in Heaven. It’s a declaration of true love which is illustrated in the ultimate sacrifice of Jesus on the cross. Imagine a community where all its inhabitants do whatever benefits them personally. Only disunity or ultimately chaos will result. A sacrificial life style promotes unity when acting with a Christ-centered view.

The same applies to an employee. Would you hire an individual that works hard, goes the extra mile, does the right thing when no one is looking, is honest, does not steal and serves others for the good of the company. Or would you hire an individual that works to just get by, does what he or she thinks is right when no one is looking, tells little white lies to make themselves look good and steals items for their personal use.

The chart to the left are the two extremes, however I think you will agree a Biblical world view is beneficial to all relationships. Most people rarely consider the above but if you examine the past two generations of evolutionary teaching, we find the social consequences of discipline being replaced with an increase use of drugs, belief in God’s Word with guns, and life with acceptance of abortion; killing a child.

It's a lot to digest but you have to ask yourself the question, "what do I really believe?" The younger you are the more you have been influence by the evolutionary curriculum, the more you act with the progressive response to your environment. Think about it. Think about your children's future. Save them.

## Chapter Four

# The Real Motive for Accepting Evolution

There can be only one reason for blindly accepting evolution as a science. It's has become the most convincing argument for an individual to believe ***there is no God***. If we really evolved from the elements around us then there is no reason to believe in a creator.

All the rules we have been taught about personal responsibility, care for others above ourselves, sacrifice with no thought of gain, give not take, etc. can be eliminated. That may look attractive and give one a sense of freedom, leaving us believe we are unrestrained from Biblical morality. As Winston Churchill put it,

***The truth is incontrovertible, malice may attack it, ignorance deride it, but in the end there it is.***

Confronted with the truth of a Biblical world view versus a progressive world view, it is difficult to expect social harmony and fairness without the absolutes of God's commands to love Him and your neighbor as yourself.

You will be confronted with the question, ***why would anyone think a progressive view makes sense.*** It doesn't but you are not dealing with carnal weapons of warfare. There is a devil and demons that inspire the willful to believe what Adam and Eve believed in the Garden of Eden. ***Go ahead and eat... You will not surely die.***

**Do people lie?**

**Do people cheat?**

**Do people steal?**

**Do people covet your goods and wealth?**

**Why?** Because of what Flip Wilson said, ***the Devil made me do it!?*** No because you believe the lies of the devil: the progressive, self serving, personal gratification first, if it feels good do it even at the expense of others, survival of the fittest evolutionary philosophy. It doesn't work in the short or long run. There are consequences for rejecting the truth of the Biblical world view.

Evolutionary disciples target believers because of their conviction. They do not want to be confronted with God. As previously mentioned more often than not they posture themselves as Goliath did, loud, angry and combative.

## The Path Taken by Progressives to Target Believers

- Darwin sowed seeds of doubt in God with his evolutionary theory.
- It gave birth to an anti-God evolutionary philosophy.
- What better way to perpetuate the lie than to educate our youth just as John Dewey did. (The father of modern education in the USA)
- Censor any “origin of mankind” except evolution. Twelve years of government school brainwashing. No choice.
- Produce a progressive society without God. Put Government in control of our lives.
- Create an anti-Biblical movement in education, the arts and media.

Now watch social order turn to chaos as we have been warned in the Bible. *The thief comes only to steal and kill and destroy.*

John 10:10

It's time to become victorious and no longer be the victim!  
Fight the acceptance of evolution and call it what it is.

**EVILUTION**

## Chapter Five

# The Decline of The Church

If today is a school day, tens of millions of children are required to be in school. If it is a public school, only one view of the origin of mankind is allowed. The only choice they have is to agree evolution is a scientific fact, which it is not, or fail the test. This is the very definition of brainwashing and indoctrination.

The God defying and faith destroying theory of evolution rules the world and is almost universally perceived as true. Its advocates are perceived as having tons of evidence proving their theory of evolution is scientific fact. Where is the evidence? The tens of thousands of volumes that are believed to “prove” evolution is fact do no such thing. They are all written from the perspective that nothing exists beyond the physical and natural. They do away with God right there before they go into the lab and perform their first experiment. They offer no proof that nothing exists beyond the natural. You are expected to make this most consequential decision BECAUSE THEY SAY IT!

## The Right To Ask

Do we have the right to ask “What Standards or Protocols or Criteria are used to determine that, not God, but something else, is the Productive Cause of everything?” Not having any acceptable scientific standards reveals that the determinations made in favor of evolution and against God are biased and completely devoid of evidence, proof or facts. If this logic holds true, we need to pursue ways to make it real to others. If we can show their non-scientific bias cannot be substantiated then this revelation could bring down the Goliath-fortress so widely perceived as invincible. Can we make the case conclusively and convincingly?

How do you convince people who believe everything came from nothing and that chaos created the infinite order before our eyes, is the result of a random evolutionary process? Well... if a mindless, non-thinking, nothing created everything including evolutionaries, then what can we expect? Why do I hear John Lennon’s song *Imagine* playing?

So what is the problem? What effect does believing in a Creator or evolution result in after 12 years of evolutionary training? We like to refer to it as **Evilution**. It is just that - Evil.

## Definition of Evilution

evil-lu-tion

*The systematic deception of the origin of human life for the expressed purpose of having society depend upon government, not God.*

As previously stated, the public school system's indoctrination of students to accept the "theory" of Evolution as scientific fact is ***the greatest hoax forced on our children – our culture – in our country's history.*** Public education offers no other choice! All other possibilities of the origin of mankind from Intelligent Design to Biblical Creationism have been censored. Christian leaders finally realize the deception. The Church is finally waking up.

## Know this is a Battle for the Minds of Our Children

For decades only one view of the origin of species has been allowed in schools. As you know, children are required to attend. Consequently, this is no less than indoctrination and brainwashing since alternate views are banned. In the past the church didn't seem to do much about it when we consider church attendance beyond high school by our young people has been rapidly declining.

**Now there is no excuse for Christians not to act considering Bibles are allowed in Public Schools in 2020. The Bible documents our creation by an all wise, all knowing creator. Start a Bible club!**

## **Start by Questioning Evolution as a Scientific Fact.**

A strong case can be made that evolution is not an authentic science. To begin with evolution denies creationism and God when in fact the complexity of everything around us points to a created design; consider the replicating functionality of DNA. Nothing created DNA? Nowhere, at any time do evolutionists offer a scientific fact disproving God designed DNA. DNA is more complex and organized than anything the scientific community has ever produced. Rather, they attempt to make their case against His existence with broad generalizations like: "all genuine scientists view evolution as settled science." "Thousands of volumes attest..." "Fossils billions of years old..." and so forth and so on. None of these arguments disprove God. And consider that we can factually state that evolution is only a theory, and is no more than, *an alternate explanation of how it all began*. So question evolution as a scientific fact. No one can prove it.

## **Scientists Have No Facts to Rule Out the Existence of God or Prove there is no God!**

Evolution does not address the unseen dimension of God. Scientists cannot go into their disciplines and find any positive proof that eliminates the Creator i.e. God. It is reasonable to expect that if they found such evidence weighing against God, they would share it. If they have none, then it's not what they found that convinces them there is no God, it just proves they were biased against God from the beginning. Rather, they try

to imagine how all of life came about or could have happened without God with their rich imaginations. Their books and research papers are no more than supposition and conjecture, yet they succeed in selling the theory of evolution (anti-God) to the public through arrogance, coercion, and intimidation. And yes, entire denominations buy into their lie that superstition and fables and faith are the same. If you resist you will be seen as ignorant and poorly educated. Their bluff works. They have no science to rule out God, and, if they did, they would welcome competition; "Bring on your creation science." If you do not believe the first words of the Bible, how much more have you conveniently rejected in God's Word?

*"In the beginning God created the heavens and the earth."*

## **Think God rather than a Random Happening!**

There are plenty of good reasons to believe in God and no good reasons not to. (Visit [www.servetheking.org](http://www.servetheking.org) for more info.) Our children are no match for teachers who are both authority figures and role models. The very atmosphere in schools is toxic in its presentation of evolution as settled science breeding the lie that God does not exist. Children cannot be expected to successfully resist the technical onslaught of those intent on winning through intimidation.

We can communicate, with simple, easy to understand insights. Let's show and tell why it makes sense to believe in God and be responsible before God. We can begin to do our part

by spreading the word, evolution is only a theory. Why not get those deceived to think God?

One last thought. How many people realize the damage the theory of evolution has done to society? 1 in a 100? 1 in a 1000? Spread the word. It's the fruit or results of believing in evolution that leads to the greatest of social ills we face today.

The church is waking up to the fact that evolution is really evilution! Share the chart on page 20.

## Chapter Six

# Your Mission: Don't Argue Science

Rarely do you ever win when you argue, let alone in the scientific arena where most of us are not scientist. When dealing with the progressive mind where there are no absolutes (right or wrong), no agreed moral standards, and the concept of tolerance becomes distorted to mean that only situation ethics apply, which led to intolerance of God's moral standards. You will then realize it is difficult to come to any agreement or logical conclusion about anything? That means values clarification (whatever you decide at the moment is right, although immoral by Biblical standards) supersedes logic and truth; then chaos and disorder are on its way. Endless arguing becomes just that: endless arguing.

The acceptance of evolution as a science and the rejection of God's absolute social order by evolutionaries insist believers possess bias, bigotry and are adhering to ancient and archaic principles that have long passed. They deny the validity of all stances against their agenda.

## **Let us train ourselves to view all others with sympathy. The world is a broken place for all.**

Picture those in need as fellow humans, beset with problems on every hand operating in a hostile world while they work and try to find a little peace and fulfillment. As the world drifts away from truth and the unseen eternal life, then fearing, longing, aspiring, being anxious, struggling and sometimes failing, leave unbelievers without victorious hope. Can we not resolve to view others with mercy and kindness? Whatever spirit we possess manifests itself. If we are condemning, it will show. If it is the love and mercy of our Savior it will show. God help us!

Christians under God are commanded to love everyone even our enemies! Our challenge is to present the message in a loving way that others cannot deny. We care for them although our stance may be in conflict with theirs. There are obvious limits we must discern and oppose when presented with destructive social conduct, but I believe most unbelievers do not understand the consequences of a worldly philosophy that has no standards. Look around and you will see a moral crisis in our political leadership, educational system, entertainment complex, and news and media outlets. What shall our response be?

Biblical grace and truth is steak to the believer but most often indigestible to spiritual infants. Love is milk that grows God's mercy and compassion in the unbeliever. The salvation message can be delivered in many ways. Show love.

I received a blasphemous note from an atheist on Facebook and could have started an argument but instead I thanked him for his opinion and sold him his objection by saying, *“If I were in your shoes I would feel exactly the way you do. I am not looking to win an argument and I respect your opinion and beliefs. Although I have a science background I am not well educated in the theory of evolution but rather I look at the consequences of the evolutionary philosophy vs. my belief in a creator as follows:*

<b>Biblical World-view</b>	<b>Progressive World-view</b>
God	No God
Divine Creation	Evolution
Supernatural Man	Natural Man
Christ Centered Life	Self Centered Life
Biblical Guidelines	Values Clarification
Absolute Standards	Situation Ethics
Obey God’s Commands	No God - Obey Self
Moral Accountability	Self-indulgent Behavior
Human Value & Purpose	Survival of the Fittest
Long Term Gratification	Immediate Gratification
Internal Self Government	External Government
Sacrificial Living	Self-indulgent Living
Serve Others	Serve Self
Hope - Faith	No Hope
Eternal Life	Death

I signed it,  
Your friend,

Domenic

To my amazement he wrote back and said that was the best explanation he had ever heard and even said **God bless you.** I have no idea where that came from except I made a friend with what seemed to be an enemy and love conquered all.

*Feel free to use the approach and chart as discussion material.*

We know that no one will achieve perfection in this life so recognizing we need a redeemer, a savior (Jesus) that is someone with power, influence and wealth that takes up our cause and pays for all our mistakes, ignorance and sins. Not arguing but understanding is the first step toward peace for everyone. Arguing builds and strengthens walls with the opposition, while befriending a person with mercy and compassion brings walls down a brick at a time. Fear not the adversary, for love will melt even the hardest of hearts.

Be patient and kind and in time God's love will cover a multitude of sins. If God has replaced the penalty of the Law of Moses with the Grace and Truth of Christ's forgiveness, then the least we should show is mercy to those in need of redemption. Most of all preach the Gospel of Our Father's love for we know...

***God is Love!*** John 4:8

## Chapter Seven

# Solutions for Overcoming Evilution

## Who Is Our 21st Century Goliath?

Someone once said the meaning of life is the resolution of conflict between good and evil for the glory of God. To ignore that Christianity is in a battle for its youth is to ignore what the United States has experienced over the past 100 years. Like Europe, the USA is experiencing a decline in church attendance and worse, a society that no longer knows right from wrong.

## The Challenge

We face defining a strategy to reverse the onslaught of the enemy by first defining who is the 21st Century Goliath. The battle fields we face are large found in the influential areas as follows:

- 1. Media and News** (Dilute Bible Truth),
- 2. Education** (Censor our belief in creation and God),
- 3. Science** (Promotes evolution the gateway to atheism),
- 4. The Arts** (Music & movies pollute our minds), and
- 5. Politics** (Teaches Government is our Salvation).

You are probably thinking those five sphere of influence are way too big for believers to defeat. That's exactly what King Saul and his soldiers thought. But then along came David and without human reasoning and unwavering faith in God, David boldly proclaimed a victory and proceeded to kill Goliath.

## **Solutions for Overcoming Evilution**

Serve the King is a ministry to ministries helping others fulfill their God born plan for Him and hope for Humanity. In that consideration we have narrowed our fight to what we believe is the number one area where students are transformed from believers in creationism and God, to evolution. Our children are censored from any other belief and are strongly influenced by their authorities in the classroom as previously stated. Here are a few important activities for defeating the enemy.

### **1. Know The Theory of Evolution Produces Atheism**

More than 60% of church attending students graduating from school leave the church! The majority of the efforts of our pastors and youth pastors apply after 12 years of church teaching God's creationism is diluted and defeated as students

conclude, *if we have evolved from the earth over millions of years, then the creation of mankind six thousand of years ago by God, doesn't make sense.* Hence, atheism is accepted as the truth of the origin of mankind for the majority of graduating students.

## **2. Target the Theory of Evolution with Questions!**

Serve the King's founder Don Cain has created a booklet to help students share their faith without offending judgments. They ask questions that reveal truth. The booklet is free and over 150,000 copies are in circulation around the world in over a dozen languages.

## **3. Teach Your Youth Creation as in Genesis**

Studies show that a student that believes in God's creation as stated in Genesis 1 remain in the Church after graduating from high school. It's that simple. There are so many resources that support Creationism. One of the best is [www.Creation.com](http://www.Creation.com). They produce many articles and programs that will help you teach your youth. You will be amazed at the videos and sermon materials you will find that support your ministry. Support Youth Ministers with resources and media (video and social media) to boost the impact of their present and positive efforts. We offer these services free of charge and will collaborate with youth ministers by listening and supporting them in their quest to fulfill their calling. Visit our website [Www.ServeTheKing.org](http://Www.ServeTheKing.org).

#### **4. Now Is The Time. Act Now.**

There is no better time than the present to act while the doors are opening in the USA for Christians to exercise their right to Freedom of Religion. The prayers of the Church are being heard by God and we are witnessing the pulling down of strong holds as our President is defending our faith here and abroad. He is openly behind Christians in word and deed. Pick up your smooth stone and sling it. Pray! Act!

#### **5. Fight One Battle at a Time!**

Serve the King ministries believes one of the greatest threats to a Godly nation begins in our schools. The constant destruction our faith in God starts with the most innocent, our children. By the time they graduate, 12 years of secularism, naturalism, atheism, and censorship of God from the curriculum, the result is devastating. We are witnessing a spiritual Foxe's Book of Martyrs where our children are being spiritually murdered with lies and deceit right before our eyes. Our one stone is arming our youth for the battle with knowledge and inspiring them to act.

Youth Pastors, there are David's among you that will hurl a stone carried by the Spirit of God that will proclaim ***Let My People Believe!*** Search them out. Provide your students with fire power. Give them a charge to pick up their stone and fight!

1:1

answersingenesis

A special thanks to Don Cain the founder of **Serve the King** and his faithful staff for their unwavering efforts to expose the dangers of the evolutionary philosophy. Progressives have conspired to produce the greatest hoax in public education, but it is now revealed.

Since the early 80's, Domenic Fusco has used his skills, talents, and passion to share the gospel through Visible Light Ministries, a non-profit corporation dedicated to communicating the Gospel through the arts and media.

Through film and print he has supported church missions and

championed the cause of restoring the arts, entertainment, and media to the Kingdom of God and His purposes. It is Domenic's hope to stir believers with aspirations that grow into what is most noble for the glory of God.

**SERVE THE KING.ORG**

LET THE WHOLE WORLD KNOW

PO BOX 541149 ORLANDO FL 32854

A NOT FOR PROFIT 501(C)3

Our **Mission** is to equip you to be a bold and confident witness against the theory of evolution. Our **Vision** is to bring attention to the Faith destroying theory of Evolution as a systematic deception of the origin of human life for the expressed purpose of having society depend upon government; not God.

**Serve the King** provides all materials free of charge including shipping (To date: over 150,000 booklets). All donations go to producing and providing free materials. **Serve the King** has no salaried employees.
